

CHANGE YOUR LIFE
O₂ SYSTEM - GENPLUS

180° Fun!

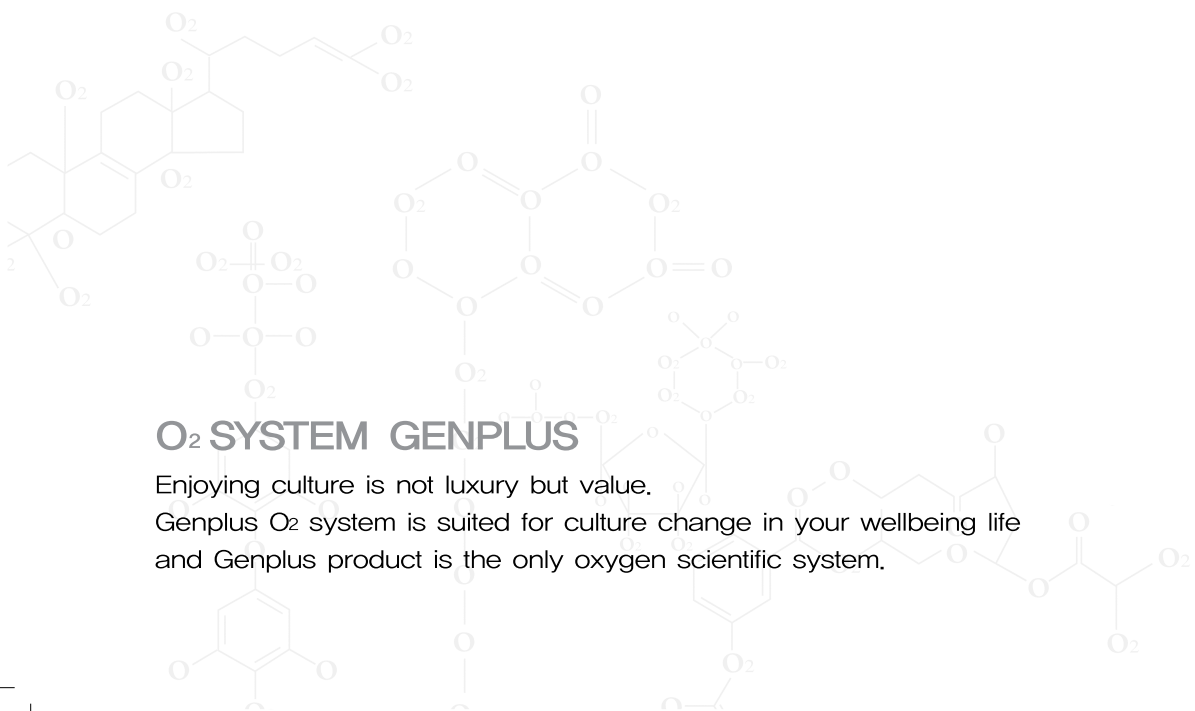

Oxygen turns our family's living space into nature...

Smile reflecting relaxation with a cup of tea...

Dramatically changed my skin...

My friend's eyes with envy ...

**Genplus O2 system makes
our family life pleasant.**

O₂ SYSTEM GENPLUS

Enjoying culture is not luxury but value.
Genplus O₂ system is suited for culture change in your wellbeing life
and Genplus product is the only oxygen scientific system.

O₂ WATER

“Water and Oxygen” is the origin of life!

[Effect of oxygen in our body organ]

Increased supply of oxygen in blood raise more blood circulation and discharge impurities, waste in blood purifying blood eventually maintain physical body health. To purify the blood keeps our bodies healthy and clean. It also improves blood circulation to increases oxygen, and can help prevent adult diseases related blood pressure.

Strengthening the body resistance | metabolic promotion | healthy skin care
 fatigue and promote vitality | relieving hangover | Improve brain activity
 help in nutrient absorption | removal and prevention of halitosis

[Depending on how the body's absorption of oxygen compared to oxygen-absorption]

Body absorb method	Body absorption	Oxygen concentration in the blood	Related Equipment
1. Absorption via Respiratory (lung)	Oxygen concentration 4.8% in liver	2 hours necessary to reach up to 90% of oxygen concentration in the blood	Oxygen Generator Oxygen mask
2. Skin absorption of	—	—	Oxygen Sauna Oxygen Cosmetics
3. absorption through drinking	- 10times faster than in comparison with breathing - 43% of oxygen concentration in the liver - 96.7% of oxygen concentration in the blood	Immediately reach up to 96.7%	- bottled water (oxygen water) - Highly concentrated oxygen water generator

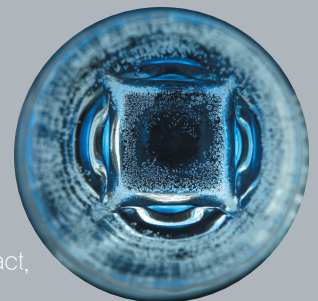

Health Solutions “O₂ water”

We are three main ways for body to absorb oxygen. Breathing through lungs and skin, breathing, and drinking water is through. The amount absorbed through the skin to breathe is only 0.4%, and most are supplied with breathing and drinking. Of which oxygen is absorbed through drinking water through breathing 10 times more than what is reported to be better absorbed. Supply of oxygen to the blood circulation increases, increased red blood cells that are good enough. In addition, the number of oxygen between drinking more than six times the amount of oxygen has been reported to be increasing.

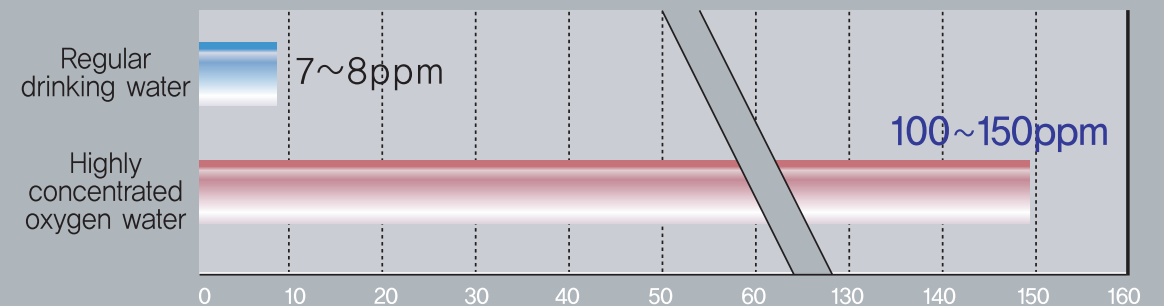

New technologies that use oxygen in the 21st century's health revolution, a new dimension!

The number of oxygen-rich oxygen saturation is clustered in high concentrations (dissolved) oxygen, water is old, Genplus products of water electrolysis technology, pure oxygen is obtained in high purity. The pure oxygen dissolved in water saturated in a short time in compact, technology-intensive high-tech patented product Genplus own oxygen (100 ~ 150ppm) is born.

[What is essence of highly concentrated oxygen water?]

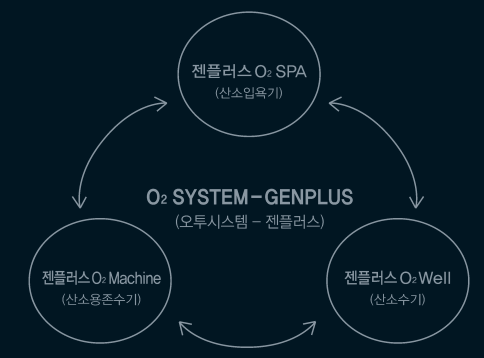

Highly dissolved O₂ water more 10~15 times than regular drinking water in terms of dissolved oxygen contents.

O₂ SYSTEM
GENPLUS

Now, you have option to design your health. Our family living space turns into nature. Enjoying Oxygen in the house and change your life into pleasure - 180° fun!

Oxygen is available, at all the places I want —
GENPLUS O₂ Machine

GENPLUS O₂ Machine

GENPLUS O₂ Machine

Dissolved oxygen GENPLUS O₂ Machine
Relieving Hangover | softening liquor | Health Regeneration

O₂ SYSTEM GENPLUS

High concentration of dissolved oxygen can be injected into any drinks during you have free time to smile. and once dissolved oxygen, quickly resolve alcohol and result in relieving hangover effects and nice soft taste of liquor

- ① Select the time / beverage selection (beer, wine, water, etc.)
- ② Automatic oxygen injector
- ③ Detachable container base fitting to height
- ☞ Make your own high-quality cafe with free movement!

* Product specification is subject to change at our option.

GENPLUS O₂ Well Generator

If it is not easy for you to get beautiful and clean environment , you are suggested with body detoxification regimen. Children and a husband who are tired all the time, their daily life is totally changed with highly concentrated oxygen water making my children's brain healthier and relieving fatigue.

Brain activation | promotion metabolism | blood purification | physical resistance enhancement

It is the Genplus' unique technology to maintain the level of O₂ content as regulated of 100~ 150 ppm level. When you drink this oxygen-rich water, you have instant effect of increasing oxygen uptake as 6 times than breathing.

- ① Light recognition sensor and microprocessor controller
 - ② Highly concentration dissolving system
 - ③ Better refined and awesome design
 - ④ Highly concentrated O₂ water generation system
 - ⑤ Silver nano air disinfection devices
- ☞ Make your own high-quality cafe with free movement

* Product specification is subject to change at our option.

Enjoy healthy life with highly concentrated O₂ water-

GENPLUS O₂ well

Reborn as good looking skin by Spa in highly concentrated O₂ water. -

GENPLUS O₂ SPA

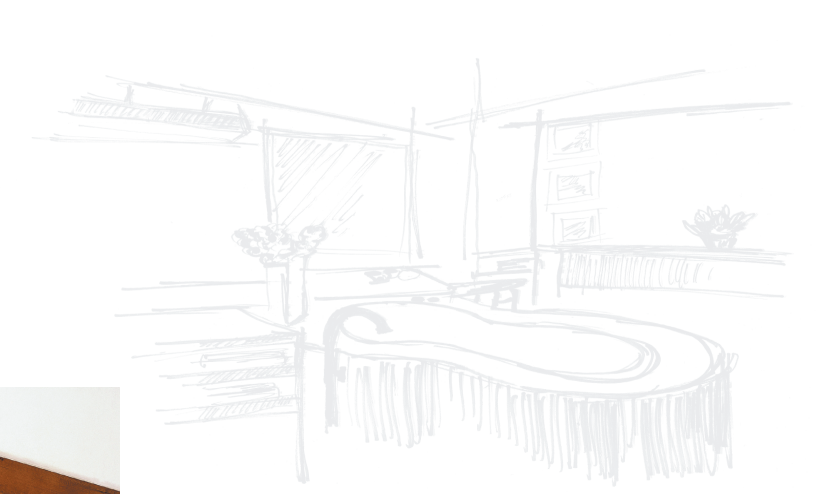

O₂ bathing tub

GENPLUS O₂ SPA

O₂ SYSTEM GENPLUS

"Did you change cosmetic?" friend's envious questions, arouse me joyfully, who noticed brightness in my face. Your delicate and sensitive skin is easily changed into bright tone skin color by oxygen microscopic particles generated in the Genplus O₂ water spa, eventually stopping aging time.

Anti-aging skin | smooth blood circulation | Remove blemishes

Regularly 20 minutes bathing every day at home and three times bathing a week with a fresh and highly concentrated oxygen water enable skin breathing and makes active waste discharge.

- ① technology-intensive system
- ② from micro to nano-size
- ③ waste decomposition and skin rejuvenation

☞ 20 min per day and three times in a week at home, you can feel vital youth.

* Product specification is subject to change at our option.

SYSTEM GENPLUS

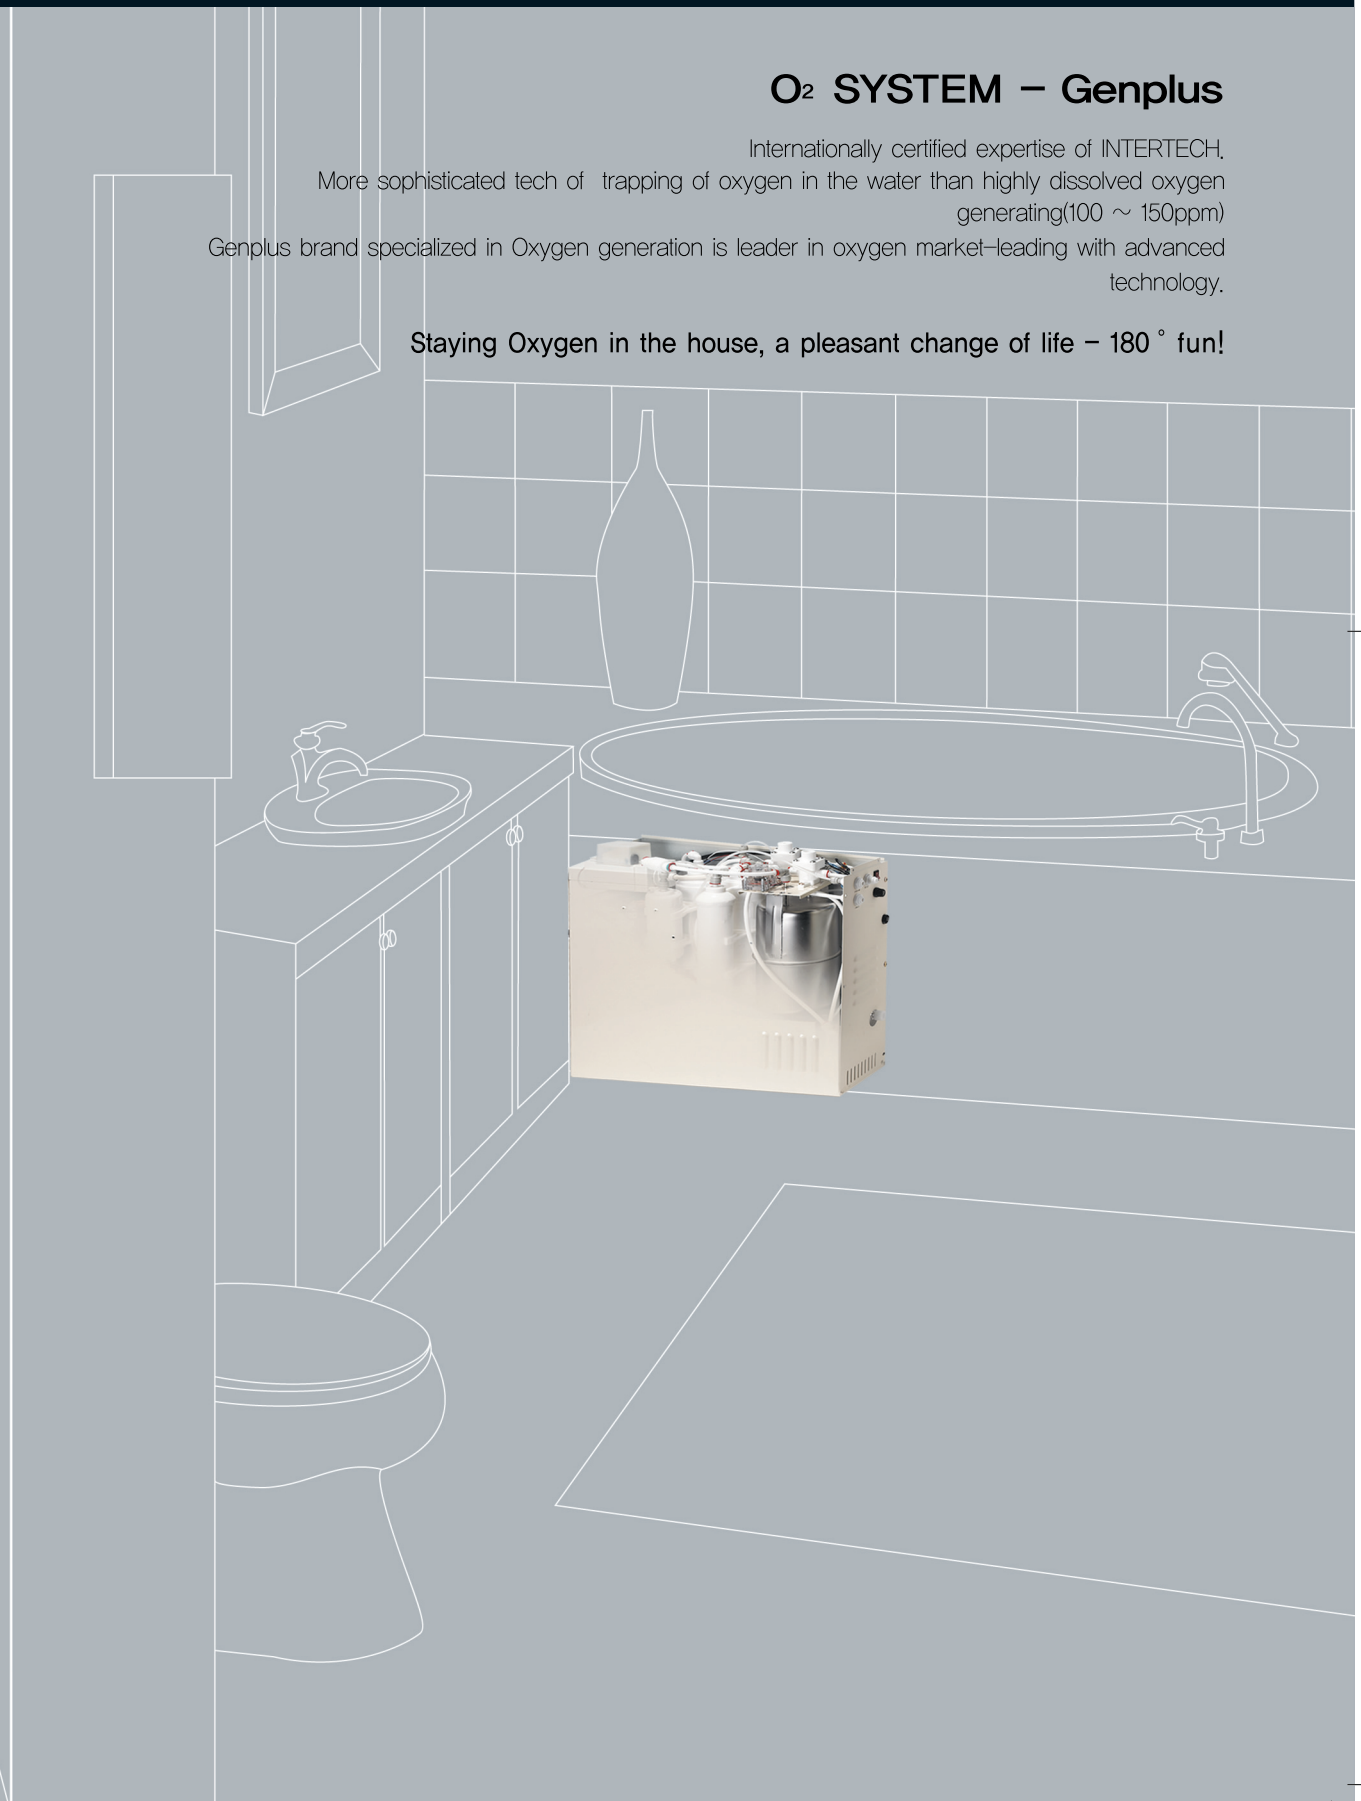

O₂ SYSTEM – Genplus

Internationally certified expertise of INTERTECH,
More sophisticated tech of trapping of oxygen in the water than highly dissolved oxygen
generating(100 ~ 150ppm)

Genplus brand specialized in Oxygen generation is leader in oxygen market-leading with advanced
technology.

Staying Oxygen in the house, a pleasant change of life – 180° fun!

TECHNICAL

O₂ SYSTEM
GENPLUS

Water, source of life! Drink high concentrations of oxygen

According to a medical report, it is said that most of intermittent pain, diseases and the like are caused by lack of oxygen in cell

- Nobel Prize in Germany : Otto Wold Ph.D , wobao Ph.D / Japan : Noguchi, Ph.D / U.S.A : Dr. Henderson

Prevention and treatment of hypertension, oxygen plays a definite role.

- Japan : Dr. Kikuchi, Tokyo Women's Univ

Oxygen will destroy the virus. - U.S.A : Ed mekeyibeu "oxygen therapy" the authors

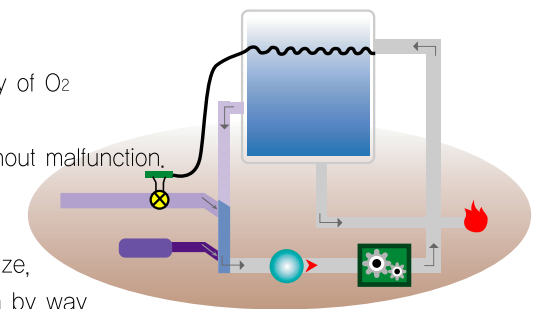

■ INTERTECH Corp. provide customer with Genplus O₂ SYSTEM which the unique state-of-the-art technology.

Oxygen generating system

By way of electrolytic analysis process (Electrolysis), high purity of O₂ is being processed under state-of-the-art technology.

Genplus system guarantee high efficiency and long lasting without malfunction.

Remarkable Dissolved System

Generating high purity oxygen in air from micro size to nano size, then diffuse O₂ into water reaching to the level of 100~150ppm by way of increasing surface tension, whereas usually available limit up to 40~50ppm under 25°C regular temperature. Only Genplus technology can do this function.

■ Comparison of dissolution methods

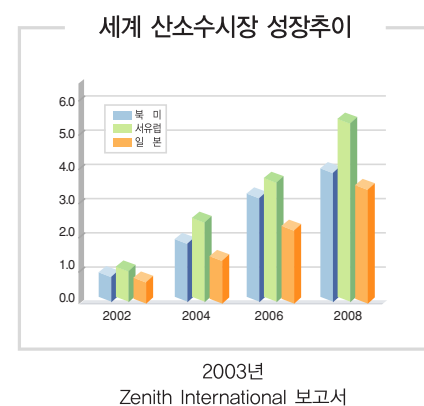

(산소수기 100~150ppm)

method	principle	limits (Dissolved oxygen)	Characteristic
Methode of Dissolving in open tank	Spreading O ₂ bubbled into microscopic particle (Browser,E-jector)	Less than 40ppm	• Maximum 40ppm even doing injection a lot of O ₂
Subscription (Sealed tank targets)	Injection high pressure O ₂ thru adding high pressure (Ultra high pressure tank applied)	More than 100ppm	• Excessive force the dissolution high cost (Facility costs, maintenance, boiled) • Not a continuous operation, not a small effect
Genplus INTERTECH. O₂ System dissolving method	Generation and dissolving O ₂ into closed water tanks and open water tanks	more than 100ppm	• Low cost of dissolving (economical in maintenance cost). • Continuous production • Applicable for household and industrial purpose • 10 times of competitiveness compared to the other existing pressurized dissolving method

The world people drink O₂ water today.

2008 year 45% rapid growth | expect more 25 percent annual growth
2012 forecast 5% share covers among mineral water.

- Developed countries : O₂ water and related industry proved as a new blue ocean market
- Germany : Adelholzener recorded 60 million bottle sales of O₂ bottling water and achieved 400% annual growth.
- Japan : Now O₂ water is the trend of drink industry.

INTER TECH - GENPLUS O₂ SYSTEM

INTERTECH is leader in the field of developing, manufacturing and marketing multi purpose oxygen generators.
We are doing our best to satisfy customer with constant development technics and customer oriented marketing philosophy.
INTERTECH expands business scope not only in oxygen business industry but also in environmental industry as representative leader in O₂ water and vision taking leap eventually to be a global environmental enterprise in future.

■ Related Business

Personal & Household

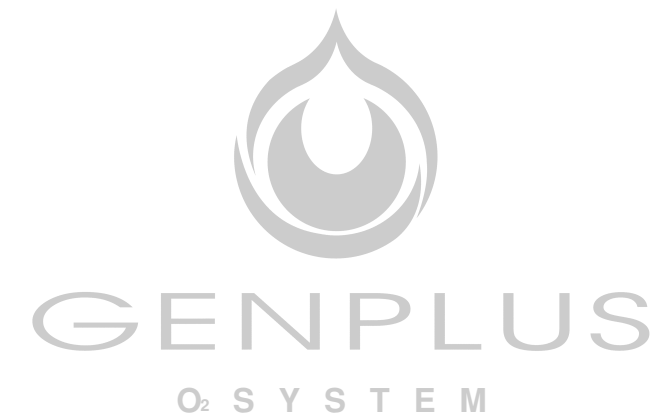

- O₂ water generator: oxygen-rich maker, O₂ water internal & external model
- O₂ water diffusing machine ; O₂ water maker, Oxygen liquor maker
- O₂ water bathing tub: oxygen massagers, O₂ water bath (household)

Industrial field (plant type)

- Medical-related: hospitals, nursing homes, silver town etc.
- Education: school, campus, etc.
- Public offices, hotels APT, sauna, fish farming, such as pollution-free vegetable cultivation

Other

- Oxygen, water, functional drinks, sports drinks, etc.

■ Patents and trademark registration:

- O₂ generaor using electrolysis ; patent
- O₂ water generator ; patent
- O₂ water refrigerator: patent
- Oxygen generation devices: patent
- O₂ water generator enabling rapid dissolution of oxygen : patent application
- Oxygen liquor making equipment: patent
- International patent application
- ➔ Apparatus for producing water of high oxygen content having high velocity of dissokution
- Trademark Application ; GENPLUS
